### KEY FEATURES OF THE METHODIST HEALTH SYSTEM 401(k) PLAN

<b>Eligibility</b>	You can enroll in the Plan at any time.
<b>Automatic Enrollment</b>	<p>If you do not enroll in the Plan or elect to opt out after 35 days, you will be automatically enrolled at a 3% pre-tax contribution rate. Your contributions will be invested in the Plan's default fund, one of the BlackRock LifePath® Index Retirement Fund Class K Shares.</p> <p>Target Date Funds are an asset mix of stocks, bonds and other investments that automatically becomes more conservative as the fund approaches its target retirement date and beyond. Principal invested is not guaranteed.</p> <p>Your contribution rate will automatically increase by 1% each year, up to a maximum rate of 10%.</p> <p>We encourage you to choose a contribution rate and investment options that are appropriate for you. If you don't want to contribute to the Plan, you must change your contribution rate to 0%. You can change your contribution rate, select other available investment options, or opt out of the Plan at any time.</p>
<b>Your Contributions</b>	<p>You can contribute from 1%–100% of your eligible base pay as pre-tax or Roth contributions, or a combination, up to the annual IRS dollar limits.</p> <p>A Roth contribution to your Plan allows you to make after-tax contributions and take any associated earnings completely tax-free at retirement, as long as the distribution is a qualified one. A qualified distribution, in this case, is one that is taken at least five tax years after your first Roth 401(k) contribution and after you have attained age 59½, or become disabled or die.</p>
<b>Annual Increase Program</b>	You can choose to increase your retirement savings plan contributions automatically each year through the Annual Increase Program.
