DRESS CODE/UNIFORM ORDER GUIDE

The Methodist Physicians Clinic (MPC) uniforms are an integral part of improving patient care, safety and the overall patient experience. Such programs have been shown to help foster communication and reduce anxiety for patients and their family members who are confused about the various clinic personnel and the roles they have in providing care and service. Clinic personnel wearing standardized uniforms are perceived as being more professional and approachable.

Effective April 1, 2018, all MPC employees will be wearing standardized scrub uniforms.

Please order your uniform as soon as you have accepted your position. If you start work before your uniform is available, please discuss options for appropriate attire with your supervisor. Please contact your direct supervisor before ordering your first set of scrubs.
